

Wiener Rosé 2022

Vintage: An exceptionally long winter was followed by late but rapid budding of the vines. Flowering was then rather again, around mid-June, and accompanied by wonderful weather conditions. The summer was principally sunny and dry, hence towards the end of July the first small dry damage appeared in young plants. August then began similarly to the 2021 season with cool night temperatures and good rainfall, which led to a good water supply for the vines after all. As a result, the fruit of the grapes became nicely pronounced and the acidity levels remained stable. September was then rather mixed: Sunny phases alternated with rainy periods and turned the harvest into a challenge. However, the rain could

not any longer cause damage, as the amounts of water were too low, the wind values too high and the greenery in the vineyards too receptive. The harvest ended around October 20th and brought both very good qualities and a satisfactory quantity. The wines present themselves ripe with cool fruit and very good potential.

Soil: The grapes for the Wiener Rosé 2022 come from multiple sights on the Viennese Bisamberg. The soil in these vineyards is primarily determined by light, sandy loess with some massive chalk underneath.

Vineyards and Cellar: Our Wiener Rosé is an assemblage of around 70% Zweigelt, 20% Pinot Noir and 5% Cabernet Franc as well as Merlot. All the grapes derive from biodynamic agriculture and are officially certified since the year 2008. After meticulous grape selection by hand picking, the separate plots were just briefly juiced and then carefully transferred in order to limit the color extraction from the berry skins. The gentle vinification continued in stainless steel to encourage the animating spiciness and fruit of the wine. At the beginning of the following year the wine is filled into bottles and in March it is finally launched.

Tasting Notes: Pale pink. In the nose you can find some notes of strawberry as well as hints of red currant. On the palate the wine appears very delicate with a wonderful, elegant acidity structure and nice spiciness. It's the ideal wine for summertime and the perfect companion for a chill afternoon on the balcony or by the water.

Wine Data: Alcohol 12.0 % vol., Acidity 5.4 g/l, Residual Sugar 2.3 g/l
